

We in Indiana like the current NO CALL LIST LAW we have for telemarketers! We do not want to be forced to live with a law that is less restrictive to the telemarketers than we have now. We are enjoying the protection we now have, and we implore you not to pass a federal law that is weaker than the current one we have. If you do pass a federal law, will you please make it at least as restrictive as the one we have in Indiana, or allow state laws to be enforced in lieu of the federal one? Thank you for listening to us.
